

Mechanical Timer

ILS-C100M Specification Sheet

PRODUCT OVERVIEW

Take full control of your power schedule with GM Lighting's dependable Mechanical Timer. Engineered to enhance convenience and efficiency, this timer lets you easily set the duration and time of day that power is supplied to your connected devices.

While it's specifically designed to pair seamlessly with GM Lighting's Transformers for landscape lighting systems, its versatility makes it ideal for use with any 120V electrical outlet. Perfect for automating your lighting or other electronic devices, this timer helps save energy, reduce manual intervention, and ensure your systems operate exactly when you need them.

FEATURES

- Plugs directly into waterproof transformer
- Mechanical dial for easy programming
- 24-hour timing capability
- Override switch for testing/bypass
