Specification Sheet

PRODUCT OVERVIEW

Take complete control of your landscape installs with GM Lighting's rugged Landscape Stakes. Designed for strength and reliability, these stakes provide a secure foundation to keep your fixtures in place and performing at their best. Ideal for pairing with GM Lighting's full line of directional and path lights, each stake is built for quick installation and lasting durability in any outdoor setting. Available in multiple sizes and styles, they're versatile enough to support a variety of applications. With durable construction and a clean, unobtrusive design, GM Lighting's stakes deliver the dependable performance and peace of mind that every lighting project demands.

FEATURES

- Compatible with GM Lighting pathlights and spotlights
- Weather-proof and corrosion resistant materials for long life
- Select stake type to match size of fixture and ground type.
- Easy installation and removal for service or repositioning

SPECIFICATIONS

- Material: Plastic, Die-cast brass, Stainless Steel
- Mounting: 1/2" NPS Threads
- Finishes: Antique Brass / Black / Brass

DUAL PURPOSE STAKE AND WIRING BOX (ILS-A160PB-AB):

- Remove top plug from cap to use as fixture stake
- Removable cap allows pipe to be used as a local wiring box making it easy to locate and protect splice connections.
- Hole to attach tag for locations on larger projects
